# Contributors

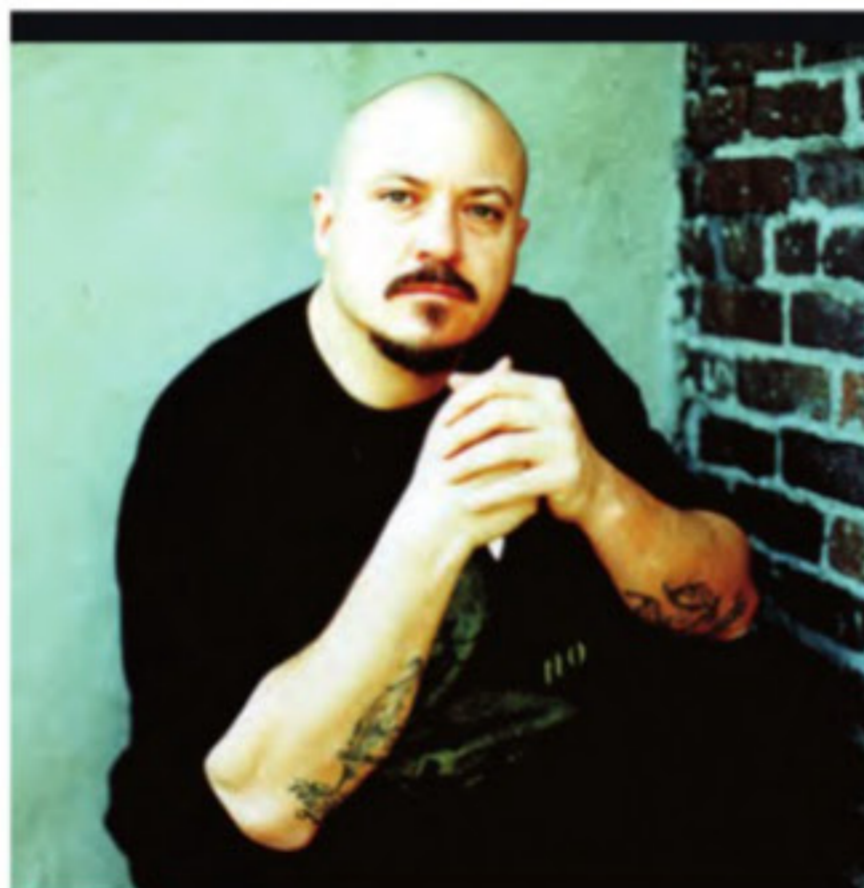

**Naomi Craigs** is a 21 year-old photographer based in Perth, Australia. Over the past few years she has worked for a number of clients and magazines, focusing on beauty and fashion. She has had her fashion and portrait work published in *Ellements Magazine*, *Freque Magazine* and online sites such as *Local Distribution* and *Sessions Magazine*. Naomi enjoys working in relaxed settings with her subjects, getting down 'n' dirty on the street, and hopes to produce more raw and down-to-earth imagery. [www.naomi-craigs.com](http://www.naomi-craigs.com)

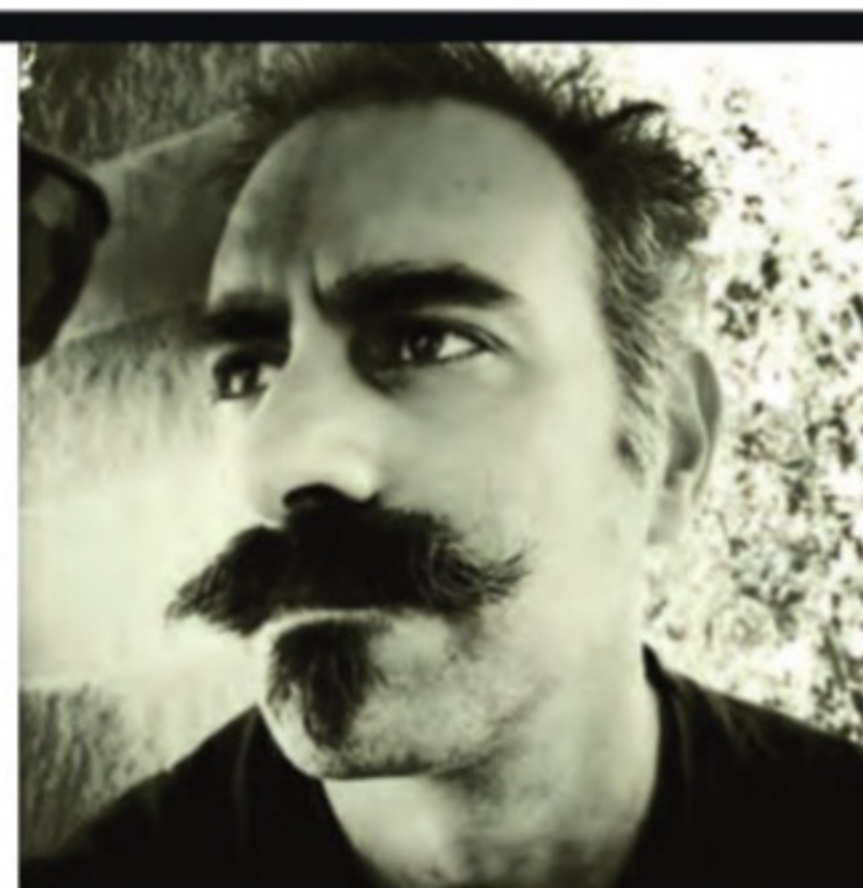

**James Oliveira** is a self-taught freelance photographer based in the Los Angeles area. Oliveira enjoys shooting bands, models, as well as street photography. He has been published both domestically and internationally in Japan where he has shot live bands for *Cure*, a Tokyo-based music magazine. His work can also be seen in *Rabid* and *Alternative Revolution* magazines, and lives with a dream to one day have people recognise his work worldwide. Whether it will be his photos of street life in the dirty city or sexy girl photography, he'll realise that dream. [jamesoliveira.com](http://jamesoliveira.com)

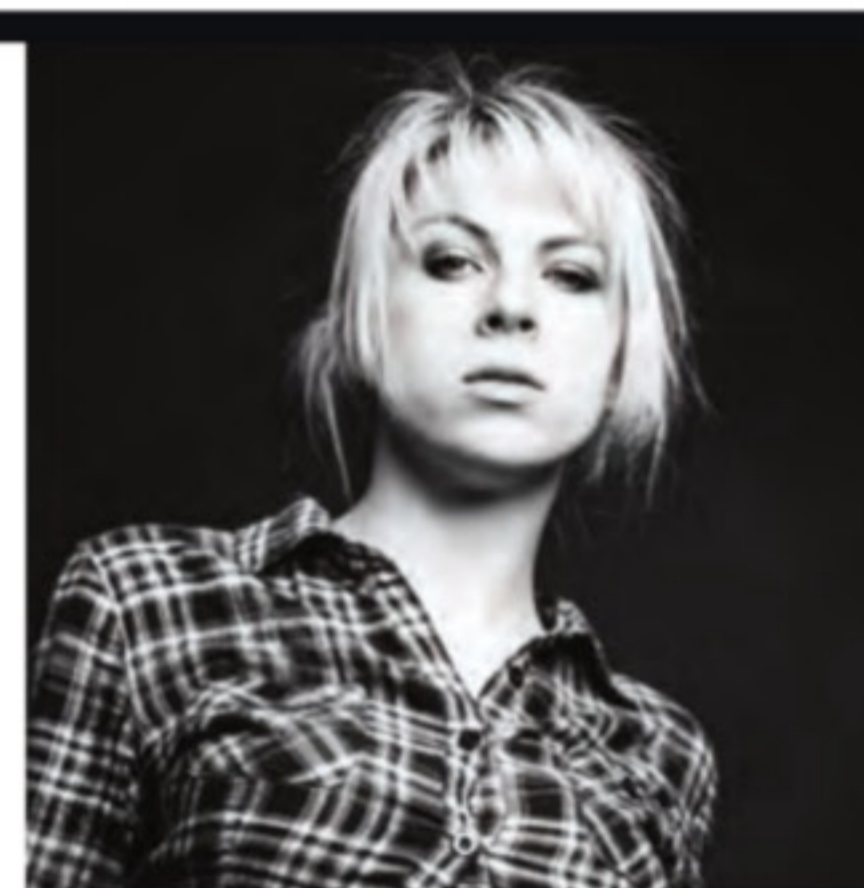

**Suvo** is an up and coming Perth photographer specialising in fashion and glamour photography. Trained in London and raised in South Africa, he is now honing his talent in WA. You can follow him on instagram on @suvo\_ or contact him via his web page at [primelightstudio.com.au](http://primelightstudio.com.au)

Born and raised in Los Angeles, **Estevan Oriol** draws inspiration from the city and reflects its sensibilities in his work. Oriol believes that Southern California juxtaposes the glitzy and the gritty more than any place on Earth, and those extremes are visible in his execution. Whether he's photographing gang life, a fashion model, Dr. Dre, or an Inked Girl there is a voice in his work that is distinctly LA bred. His photographs have been featured in *Inked*, *Complex*, *GQ*, *Rolling Stone*, and dozens more. He is currently releasing his two new books titled *LA Portraits* and *LA Woman 2*. [estevanoriol.com](http://estevanoriol.com)

**Giuseppe Dante Sapienza** is a Melbourne based photographer and artist keeping busy shooting model portfolios and fashion. He's style has always gravitated towards an edgier, bolder look, which has complemented his extensive work with local, tattooed models, and by consequence, is a regularly contributor to *Inked Girls* magazine. His personal work is very story driven, and he is often crossing creative fields, working on film, graphic novels and oil painting. [gdantesapienza.com](http://gdantesapienza.com)

**Kat Luzny** is a travelling photographer from the Atlanta, Georgia area, and also studies art education at the University of North Georgia. Once a former model and now professional photographer, Kat enjoys both sides of the camera. In her spare time she practices yoga and aerial training, and playing with her dogs. # Welcome

---

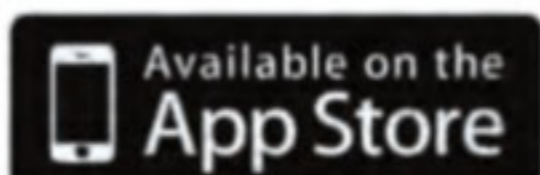

I'm asked time and time again how we find girls for Inked and Inked Girls. There are a number of ways, but mostly I get out there and search for people. I'm on every social network site there is, I attend all the tattoo expos, and I lurk around looking for someone that has that 'something'. When it comes to Inked Girls, that 'special thing' isn't a 6 foot tall deity with long, flowing locks who wears a size less than zero! Mostly it's something in her eyes, or a little hint of something more in her smile. The best thing about Inked is it's not about size and it's not about the colour of a girl's hair; instead it's ALL about how she wears it. Confidence will always shine through in photos!

The other question I get every day of my life (no exaggeration) is: Do you take submissions? The answer is yes! The best way to submit is to send three or four low-res photos from one or more shoots to us at [inkedaustralia@gmail.com](mailto:inkedaustralia@gmail.com), and include the photographers name(s) and makeup artist/hair credits. Be patient, as we get a lot of these each day and will get back to you as soon as we can. With these photos, we're looking for tattoos firstly; each photo must show some tattoo work. We're looking for focused photos (I know this is a no brainer, but...) and then, finally and most importantly, well-lit natural-looking photos! This means no orange skin, no over-the-top makeup (we want to see you, not the makeup), and no clothing that will dominate the tattoos.

Cheers  
Ness
