We are always looking for great tattoos, flash and artwork to feature in Skin Shots International. If you want to send us your work to potentially be seen by a global audience of thousands, here's how to do it:

We accept submissions by email to...

editor@skinshots.co.uk

You can also make use of Dropbox, Hightail or one of the many other large file transfer services available using the same address. We are also beginning to phase out CD/DVD as an acceptable method of receiving images. With these time and resource saving digital methods, let's give something back to the planet along the way.

Please make sure your images have a resolution of 300dpi and have a minimum size of 100mm x 150mm. A good rule of thumb is to ensure each image is at least 1mb in size for good reproduction in print.

We no longer accept photographs, negatives, computer printouts or any other hard copy media as a means of submission. Now... let's see what you've got.
