AZモデルカタログ

Výroba / Production

Naše firma LEGATO začala s vlastní výrobou vstřikovaných plastových modelů začátkem roku 2005 pod obchodním názvem Legato plastic kits.

Postupně se přidaly obchodní názvy AZ model a nyní nově AZ airport144.

Modely vyrábíme ve světových standartních měřítkách 1/48, 1/72, 1/144 a 1/32.

Všechny naše modely jsou vyráběny technologií vstřikování plastu do forem na vstřikolisech CS-88 a CS-160.

Naše modely jsou standartně doplněny o odlévané díly z PUR vlastní výroby a leptané kovové díly a obtisky nejvyšší kvality.

Dnes jsou již naše modely dostupné po celém světě přes obchodní síť našich distributorů a prodejců.

About us

Legato producer has begun his production of injection moulded plastic models under brand Legato Plastic Kits in early 2005.

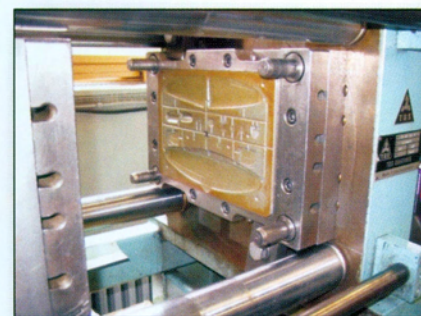

The trade names AZ Models and AZ Airport have progressively been added.

Plastic models are produced in the most popular scales 1/144, 1/72, 1/48 and 1/32.

For production of all AZ plastic kit models is used technology of injection moulding to the moulds on the CS-88 and CS-160 injection moulding machines.

Standard features of all AZ plastic kit models are our own PUR parts, photo etched parts and decals of the top quality.

Our plastic models can be found in our distributor's network and many retailers worldwide.
