1:48 and 1:72 scales are the internationally accepted sizes to model aircraft in. HASEGAWA has consistently invested in the costly tooling of 1/48 scale models, expanding its series to include fighters from World War II, as well as helicopters and the latest jet aircraft in use today. The accuracy of outline and moulded surface detail of the highest quality. Both beginner and expert alike are able to produce aircraft models with the atmosphere of the original subject.

Las escalas 1:48 y 1:72 son las que más se utilizan para modelos de aviones. HASEGAWA ha continuado diseñando nuevos productos utilizando la escala 1:48 para ampliar esta serie que ofrece una gran abundancia de modelos y tipos de aviones de combate y helicópteros en activo durante la Segunda Guerra Mundial, así como de los más recientes cazas y otros aviones de ataque. La exactitud de las réplicas, el buen modelo típico de HASEGAWA y los diferentes componentes organizados para facilitar el trabajo del montador hacen de estos modelos un producto de calidad excepcional. Tanto el aficionado con experiencia como el principiante podrán recrear la atmósfera original de un avión de verdad.

Les échelles 1/48ème et 1/72ème sont les échelles principalement employées dans la construction des maquettes. Hasegawa a toujours su investir dans de nouveaux moules pour ses modèles à l'échelle 1/48ème, élargissant sa gamme aussi bien aux chasseurs de la seconde guerre mondiale qu'aux hélicoptères et derniers jets utilisés de nos jours. La précision des signes extérieurs et les détails sont d'une qualité extrême. Les débutants comme les experts seront capables de construire et reproduire l'atmosphère du modèle original.

Le scale 1:48 e 1:72 sono quelle principalmente usate per i modelli di aerei. HASEGAWA ha seguito una costante politica di espansione della sua linea di modelli in scala 1:48, ricca di tipi e varietà di caccia e elicotteri attivi durante la seconda guerra mondiale oltre ai più nuovi jet caccia e altri aerei d'attacco. L'accuratezza del disegno e della finitura tipici di HASEGAWA e l'organizzazione dei pezzi in modo da facilitare il montaggio rendono questi modelli prodotti di altissima qualità. Non solo i modelli esperti, ma anche quelli alle prime armi possono così ricreare l'atmosfera originale dei veri aerei.

中文 1:48比例和1:72一樣是飛機模型的主要比例。長谷川公司不斷地擴展1:48比例的新產品，努力地擴充本系列。包括了在第二次世界大戰期間十分活躍的各種戰鬥機、轟炸機、最新型的噴射戰鬥機、轟炸機等，種類繁多。不論是在外觀的正確性上，或是長谷川獨具的逼真造模，對史考者達到製作模型的零件構建等，都展現出第一流的品質。內行人當然是得心應手，即使是初學者也能明瞭如真的表現出實際飛機獨特的氣氛。

1:8 SCALE MUSEUM MODEL SERIES

UK This series of models is actually found displayed in museums all throughout the world. The internal structure and control functions duplicate those of the full sized aircraft being modeled. Only the finest components of Japanese Cypress woods, soft metals, brass and plastics are used. These are time consuming model kits, which offer the utmost satisfaction in modeling, and something to be treasured, when completed.

DE Die "MUSEUM-MODELLREIHE" wird in der Tat häufig in Museen ausgestellt. Struktur und Funktion der Original-Flugzeuge werden in diesen detaillierten Modellen wirklichkeitsgetreu nachgebildet. Diese Serie, bei der sowohl die Bestimmung und die Verarbeitung der Werkstoffe einem sehr sorgfältigen Auswahlprozess unterzogen wurde, ist wohl einzigartig in der Welt. Japanisches Zedernholz, Weichmetall, Messing, sowie Sperrholz- und Plastik wurden bei der Gestaltung des Außenbildes kombiniert. Selbstverständlich entspricht das Äußere dem Originalmodell bis ins letzte Detail. Dieser Bausatz enthält viele Einzelteile und erfordert daher einen beträchtlichen Zeiteinsatz, aber die Genauigkeit und Befriedigung, die man beim Betrachten dieses Modells verspürt, ist die Mühe sicherlich wert.

FR Cette série de modèles de musée est une série souvent exposée dans les musées du monde entier. La structure et les fonctions des appareils réels sont fidèlement reproduits dans des maquettes extrêmement détaillées. Cette série, rare dans le monde, a reçu toute l'attention voulue dans le choix et l'utilisation de ses matériaux de base. Son aspect et ses lignes ont été réussies grâce à l'emploi de matériaux tels que le cyprès japonais, le contreplaqué, des métaux mous, le cuivre et le plastique. L'apparence extérieure est de la plus haute précision. Bien que la construction de ces maquettes nécessite un investissement temporel important, celui-ci vous procurera une satisfaction difficile à égaler avec d'autres modèles.

IT Questa serie di "modelli da museo" è spesso usata realmente nei musei. La struttura e la funzione dei veri aerei sono riprodotte accuratamente in modelli estremamente dettagliati. Questa serie estremamente particolare è stata realizzata con particolare cura nella scelta e nella disposizione dei materiali grezzi. L'aspetto realistico è stato ottenuto con un impiego abile e attento di materiali come il cipresso giapponese, il compensato, metalli dolci, ottone, e plastici. E naturalmente l'esterno è stato realizzato con la massima accuratezza. Il montaggio di questo kit richiede molto tempo perché esso è composto da moltissimi pezzi: ma regala una soddisfazione difficilmente ottenibile con altri modelli.

ES Esta "Serie de Modelos de Museo" es en realidad una serie que a menudo se exhibe en museos. La estructura y las funciones de los aviones se reproducen con toda fidelidad en modelos muy detallados. Esta es una serie muy especial para la cual se tuvo particularmente en cuenta la selección y disposición de los materiales. Su aspecto se ha logrado mediante una buena combinación de materiales tales como el ciprés japonés, madera contrachapada, metales blandos, latón, y plástico. El aspecto exterior, por supuesto, es de la más rigurosa exactitud. Puesto que hay muchos componentes, su montaje requiere mucho tiempo, pero la satisfacción que le proporcionará será muy difícil que la ignoren los otros modelos.

中文 這是世界上為數不多的博物館模型系列。為了能絲毫不差地重現原機的结构和功能，經同平常在博物館展覽的超精細模型一樣，特別注重材料的選擇和設計。為此，這種模型系列中廣泛地運用日本扁柏、膠合板、軟金屬、黃銅、塑料等各式各種材料，以求重現一切。外形當然與原機無異。儘管零件多以數製作而計，完成後的滿足感卻是難以倫比的。

SCALE AIRCRAFT IN ACTION SERIES

UK The "Aircraft in Action" series was designed to accent finished aircraft models, displayed in a "Plane Diorama". By using these model kit accessories, such as bombs, missiles and ground support vehicles, a very realistic scene can be quickly and easily created. The series is produced in both 1:72 and 1:48 scales, with complete fidelity and total accuracy.

DE Die Modelle "Flugzeuge in Aktion" wurde entworfen, um die Zusammenstellung eines Flugzeug-Dioramas zu ermöglichen. Mit Hilfe der Nachbildungen dieser Serie können fertiggestellte Szenen aus dem Nichts geschaffen werden. Ein weiteres Ziel dieser Modellreihe ist die Erweiterung der Möglichkeiten durch ein Angebot von Zubehörteilen, wie zum Beispiel Bomben, Raketen und Hilfsmittel, alle in den Maßstäben 1:72 und 1:48. Normalerweise werden nur wenige spezielle Ausstattungsteile im Hauptbausatz mitgeliefert, aber diese Serie verfügt über ein umfangreiches Arsenal von zusätzlichen Bauteilen. Dies bietet neue Anreize und Möglichkeiten, individuelle Szenen zu schaffen.

FR La série "Avions en action" a été conçue pour permettre de reconstituer l'environnement d'un avion au sol dans des dioramas. En utilisant ces accessoires, bombes, missiles, véhicules de support, que ce soit au 1/48ème ou 1/72ème, une situation très réaliste peut être facilement et rapidement reproduite. Ces accessoires sont disponibles aux échelles 1/48ème et 1/72ème avec une fidélité et une précision exemplaire.

IT La serie "Aerei in azione" è stata progettata per creare paesaggi di "Diorama aereo". Usando questi materiali, è possibile creare scene vivide che emergono dal nulla. La serie adempie a questo scopo con una grande varietà di accessori, come bombe, missili e veicoli di sostegno nelle scale 1:72 e 1:48. Normalmente gli accessori inclusi nel kit di montaggio non si integrano perfettamente con le caratteristiche dei modelli, ma questa serie fornisce un'ampissima scelta di elementi supplementari. Una ricchezza di particolari che consentirà di creare paesaggi originali ricchi di azione.

ES La serie "Aviones en Acción" es una serie diseñada para crear un "diorama de aviones". Mediante la utilización de estos materiales, podrá montar una escena muy viva como si surgiese de la nada. Este es el objetivo de esta serie. Una gran colección que incluye accesorios tales como bombas, misiles y vehículos de apoyo reproducidos a la escala 1:72 y 1:48. Por lo general, estos accesorios no forman parte de las características especiales de estos jugos, pero esta serie en particular contiene una amplia selección de elementos suplementarios. Esto debe ofrecerle un nuevo estímulo para crear sus propias composiciones.

1:200 SCALE AIRLINER SERIES

 1:200 scale commercial aircraft models, known also as the LL200 series, are models of the worlds best known airliners. The kits, for the most part, are molded in two colors, and with the application of the enclosed decals, the most famous airliners of the world can be produced. They are accurate and easily assembled for static display on the enclosed decorative stand.

 Diese Modellreihe - allgemein Maßstab LL200-Serie genannt - repräsentiert die Passagierflugzeuge der weltweiten Luftlinien, einschließlich der farbigen Original-Markierungen. HASEGAWA hat diese Beispiele moderner Luftfahrt-Technologie auf einen Maßstab von 1:200 gebracht. Diese Modelle bestehen nur aus wenigen Einzelteilen, so daß der Zusammenbau zum Kinderspiel wird, aber sie sind auch zweifarbig in fertig montiertem Zustand erhältlich. Durch Anbringen der im Bausatz enthaltenen Aufkleber kann jeder eine naturgetreue Nachbildung anfertigen. Die fertige Modell kann dann zur besseren Betrachtung auf einem einfachen Ständer montiert werden.

 La série 1/200ème des avions de transport commerciaux connue aussi sous le nom de "Scale LL200 series" a été conçue pour reproduire les avions civils les plus connus. La plupart des kits sont moulés en 2 couleurs et l'on peut à l'aide des magnifiques décalcomanies inclus dans chaque boîte reproduire les avions commerciaux les plus célèbres. Ces maquettes sont précises, faciles à assembler pour une belle exposition statique.

 La serie aerei passeggeri in scala 1:200, comunemente chiamata serie in scala LL200, è stata ideata per catturare la sensazione di viaggiare in tutto il mondo su un aereo passeggeri, reso in tutti i suoi colori con i contrasti della compagnia aerea internazionale. HASEGAWA ha ridotto abilmente questi magnifici aerei prodotti della tecnologia più avanzata in una comoda scala 1:200. I componenti sono così pochi che montarli è semplicissimo, e sono disponibili anche modelli già montati in due colori. A questo basta applicare le decalcomanie in dotazione per completare questi bellissimi modelli. Inoltre è possibile montare gli aerei su di un supporto, ottenendo l'effetto di vederli in volo.

 La Serie de Aviones de Pasajeros de escala 1:200, generalmente llamada Serie LL200, se ha diseñado para poder transmitir la emoción de un viaje alrededor del mundo a bordo de un avión de pasajeros, con todo el espléndido colorido de las líneas aéreas internacionales. HASEGAWA habilmente ha reducido las maravillosas formas nacidas de la técnica más avanzada a escala 1:200. A fin de que el montaje resulte fácil para cualquier persona, no sólo se ha reducido el número de piezas, sino que también se han moldeado en dos colores. Por lo tanto, con tan sólo añadir las pegatinas provistas, cualquier persona podrá montar estos bellos modelos. Además, como los modelos pueden colocarse encima de un simple soporte, usted podrá contemplar a placer la belleza del avión.

 比例爲 1:200 的客機系列通稱爲 LL200 系列，這種系列能使您欣賞到世界最精彩最艱難的彩色與圖案的飛機。就像親自體驗到了自己乘坐著這種飛機遨遊世界的感覺。

長官川公司應用自己的獨有技術將由現代最先端技術設計出的新穎結構的飛機巧妙地縮小到二百分之一，而且，爲了使製作不熟練的愛好者也能簡單地進行組裝，因此盡量減少零件的數量，並採用 2 色成形方式。所以，只要貼上零件中所附的圖案紙，則無論是誰都能將其製作成美麗的飛機模型。另外，還附有簡單的觀賞台，因此也能使您很好地欣賞各種飛行狀態。

El acabado de los juegos son de la calidad que sólo Hasegawa puede ofrecer. Los detalles son perfectamente definidos y recreados con total claridad. Juntamente con la serie "Aviones en acción", los modelos de esta serie son un excelente complemento para cualquier construcción escénica o colección.

中文 這是世界上最著名的戰車、卡車、大炮等，模型齊全的迷你箱專集。1比72尺寸是航空飛機模型的主流，所以採用了同一尺寸軍用飛機，還有連機關也可以供給你欣賞。零件的精細是長谷川公司的獨特表現，每一細節都有銳利的彫刻，比例尺寸也非常正確。把這個專集和別的專集「行動飛機專集」合併起來，或與連機關專集放在一起，都是很有趣味的。

SCALE WATER LINE SERIES

WATER LINE SERIES

 This is a series of ship models in 1/700 scale size. They are built to show them underway at sea, with only the surfaces above the waterline visible. Three different model companies from SHIZUOKA city produce this series of more than 100 world famous naval vessels, which has admirers from around the world. Each of these ship models are accurate, while taking up very little display space.

 Diese Modellreihe, eine sehr umfangreiche Serie, reproduziert die "Königinnen der Meere" mit der ganzen Dramatik ihrer Geschichte auf den Ozeanen der Welt. Mehr als hundert Schiffe der japanischen Kaiserlichen Flotte, dazu noch andere weltberühmte Ozeanriesen sind hier zusammengefasst. HASEGAWA's "Waterline"-Serie wurde unter Mitwirkung von vier Modellzeichnern aus Shizuoka aufgebaut. Der Name der Serie - "Waterline" - stellt eine Besonderheit dieser Modellreihe dar: der Schiffsboden wurde nämlich herausgeschnitten, um den Eindruck zu vermitteln, daß die Schiffe auf dem Wasser liegen. Der Maßstab 1/700 ist wegen seiner raumsparenden Vorzüge besonders für umfangreiche Sammlungen geeignet. Verschiedene Zubehör-Artikel stehen zur Verfügung, um die Modelle für Ausstellungszwecke zu komplettieren.

 Série de navires à l'échelle 1/700ème. Ils sont réalisés de manière à être posés à plat et à ne laisser apparaître que ce qui se trouve au dessus de la ligne de flottaison. Trois sociétés différentes de la ville de SHIZUOKA produisent cette série de plus de 100 navires plus ou moins célèbres sur les différentes mers du globe. Chacun de ces modèles est réalisé avec précision, bien que tenant peu de place grâce à l'échelle réduite.

 La più grandi navi da battaglia che si siano affrontate sui mari del mondo... Le protagoniste di tanti episodi gloriosi... Ora in una nuova serie che comprende più di 100 navi delle flotte combinate giapponesi e altre navi famose nel mondo. Per questa serie Linea di immersione HASEGAWA ha ottenuto la collaborazione di altri quattro fabbricanti di modelli di Shizuoka. Il nome della serie è dovuto al fatto che il fondo delle navi è stato tagliato per ottenere l'effetto di navi galleggianti sull'acqua. Standardizzati nella scala 1/700, che non occupa eccessivo spazio anche per navi di grandi dimensioni, questi modelli sono ideali per una collezione ricca nei dettagli. Sono inoltre disponibili accessori per completare lo scenario.

 Los "reyes del mar" que fueron lanzados a la tragedia de los siete mares... Algunas páginas de la historia se escribieron allí... Una serie enorme que agupa a más de cien navíos de la flota del Japón y otras buques mundifamosos. Iniciada con la Serie Waterline de HASEGAWA, esta serie fue realizada con la participación de cuatro fabricantes de Shizuoka. El nombre "waterline" significa que el calado de los navíos se ha cantado para dar la impresión que flotan sobre el agua. Reproducidos a la escala 1/700 y con un tamaño considerable pero no excesivo, estos modelos son los más adecuados para una colección de gran detalle. Hay a disposición accesorios para conseguir un acabado digno de modelos de exposición.

 中文 這些海洋女王在世界各大海洋走過許多浪漫旅程，產生了無數的對話。吃水線系列是「長谷川」等四家模型廠共同設計製造的。該系列一百多以上日本聯合艦隊和世界著名艦隊的大型系列。所謂吃水線是指船底被切掉。這些模型省去了吃水線以下的艦體部份，只表現從海面上看到的艦體部分。尺寸比例統一成1:700，不佔地方，且連細微部份都精細地重現，最適合於珍藏。若用於組裝立體佈置，亦備有各種襯托物品。
